

JEFF HARELL CLIMACO

Information Technology Graduate | Full-Stack Developer | Systems Developer
09278569994 | jeffharell.climaco@hcdc.edu.ph | Bacolod, Cagwait, Surigao Del Sur

PROFESSIONAL SUMMARY

Results-driven Information Technology graduate with hands-on experience building and deploying full-stack web applications, desktop systems, and database-driven tools. Proven ability to deliver end-to-end software solutions — from UI design and database integration to QR-based authentication and live server deployment. Adept at iterative development, bug resolution, and cross-platform system design. Seeking a developer role where I can contribute immediately and grow within an innovative team.

WORK EXPERIENCE

Software Developer Intern (OJT) | On-the-Job Training

February 2026 – May 2026

- Designed and developed an Inventory Management System (IMS) featuring teacher ID forms, borrow/return workflows, product management, stock tracking, and history logs using C# and MySQL
- Built a web-based OJT Daily Time Record (DTR) system with login, QR-code authentication for mobile users, entry forms with real-time rendered/remaining/overtime hour calculations, pagination, and admin dashboard; deployed live to production server
- Revamped full UI suite for a PetShop Point-of-Sale (POS) system — redesigned 10+ forms including Dashboard, Login, SplashScreen, Manage Pets, Accessories, Users, Inventory, and Sales Report; implemented responsive layouts across all forms
- Produced a demo video for a Teacher's Monitoring System, including screen recording, editing, narration, and a History Logs walkthrough

PROJECTS

Online Ordering System with Inventory, POS, Billing & Sales Report | Academic Project – Nar's School Supplies

2025 – 2026

- Developed a complete e-commerce and back-office system covering order management, inventory tracking, point-of-sale billing, and automated sales reporting
- Integrated database-driven workflows enabling real-time stock updates and transaction history

Scrappix: AI-Powered Recycling & Repurposing Platform | Capstone Project

2025 – 2026

- Built an AI-driven web platform to help Filipino households identify recyclable materials, suggest repurposing ideas, and foster sustainable habits
- Focused on economic empowerment and community-level environmental impact through intelligent material recognition

TECHNICAL SKILLS

Languages & Frameworks

HTML, CSS, JavaScript
React Python, Java, C#

Databases & Tools

MySQL
PHP
Firebase

Practices & Platforms

Web Development
Server Deployment & Testing
UI/UX Design & Responsiveness

EDUCATION

Bachelor of Science in Information Technology

Holy Cross of Davao College – Sta. Ana Avenue, Davao City

Senior High School – General Academic Strand (GAS)

Davao Doctors College

High School – San Antonio High School

S.Y. 2014 – 2018

Elementary – Bacolod Elementary School

S.Y. 2008 – 2014
